

## PRODUCT DATA SHEET

### UKPN-BRANDED CABLE PROTECTION TILETAPE™

UKT02UKPN

Ref	TS193E
Date	Dec 2021
Pages	1 of 1

#### DESCRIPTION

Heavy-duty warning tape made from 2.5mm thick recycled plastic. A brightly coloured strip of yellow virgin polyethylene film is laminated to the surface of a homogenised recycled plastic base. The yellow tape is over-printed in black with an identification warning text. Free from PVC.

#### INSTRUCTIONS / USES

The tape is designed to be buried above underground power cables and offers a high level of protection when compared to traditional (flimsy) marker tapes. The ideal depth of installation is 300mm, although we recommend the tape is placed as close to the ground surface as possible. The tape retains flexibility to allow it to be simply unrolled along the trench. Weighing less than 20kgs for a 40M roll there are significant cost reductions in transportation, handling and installation when compared to traditional concrete or clay protection slabs.

#### FEATURES

- Complies with ENATS 12/23
- Branded with UKPN UK POWER NETWORKS logo
- 2.5mm thick
- Recycled plastic
- High level of protection for buried utility lines

#### TECHNICAL INFORMATION

ROLL SIZE
200mm x 40M

THICKNESS
2.5mm

BASE SUBSTRATE
Recycled thermoplastic material

TOPTAPE SUBSTRATE
100% virgin polyethylene

COLOUR
Yellow tape, black text, dark base

PVC CONTENT
The tape contains NO PVC

RESISTANCE TO ACID
Highly resistant

RESISTANCE TO ALKALI
Highly resistant

MELT FLOW INDEX
0.3 – 0.4 g / 10 min

DENSITY
920 – 945 Kgs/M <sup>3</sup>

ROLL WEIGHT
18.80 Kgs

PALLET QUANTITY
40 rolls

CARTON QUANTITY
1 roll

#### OTHER INFORMATION

There is no relevant BS British Standard or EN European Standard for this product
