

POLYTHENE JOINTING TAPE

UKT109

Ref	TS1705
Date	Dec 2014
Pages	1 of 1

DESCRIPTION Premium quality, heavy-duty, self-adhesive PVC tape.
 High tack & water-resistant
 Excellent conformability to irregular surfaces

USES Ideal for joining DPM, DPC, polythene sheeting & damp-proof membrane.
 Widely used throughout the construction industry for a variety of sealing, jointing & bundling applications.

BENEFITS / KEY FEATURES

- > Premium quality
- > Water-resistant tape
- > Adheres well to polythene & other plastics
- > Proven reliability

TECHNICAL INFORMATION

SUBSTRATE PVC	ADHESIVE Rubber-based	CORE 76mm diameter cardboard core
TAPE WIDTH 75mm wide (also available in 25mm, 50mm & 100mm)	TAPE THICKNESS 130mu (0.13mm)	ROLL LENGTH 33M long
ELONGATION 150%	TENSILE STRENGTH 26.4 N/ 10mm	ADHESION STRENGTH 2.0 N/ 10mm
DIELECTRIC STRENGTH 1250 volts/mil	APPLICATION TEMPERATURE 0°C to 40°C	ROLL WEIGHT 0.50 Kgs (based on 75mm x 33M)
STORAGE TEMPERATURE 10°C to 20°C	CARTON QUANTITY 36 rolls	SHELF LIFE 12 months
