

## SUREFOOT™ ANTI SLIP TAPE : MARINE GRADE

UKT131

Ref	TS1819
Date	Dec 2014
Pages	1 of 1

### DESCRIPTION

Premium quality, self-adhesive tape with a non-slip surface to help reduce the risk of slips and falls.

Made from a tough, waterproof PVC base impregnated with non-abrasive crystals, giving a finish that is softer to the touch than the usual abrasive non-slip tapes.

### INSTRUCTIONS / USES

Creates a non-slip surface for steps, stairs, ramps and slippery surfaces.

Specifically designed for use on yachts & other watercrafts, kitchens, shower areas and changing rooms.

**INSTALLATION :** Apply in temperatures of not less than 5°C, ensuring the surface is clean, dry and free from dust, grease, oil or other contaminants. Apply a brushed coating of UKT79 Primer to the ground surface and allow to almost dry. Remove the backing paper and unroll the tape, applying even pressure to ensure a firm bond. Pay particular attention to the edges of the tape. For best results, a bead of UKT79 Edge Sealer should be applied along the exposed edges. Allow at least one hour (preferably 24 hours) before walking over tape or exposing it to water.

### BENEFITS / KEY FEATURES

- > Premium quality
- > Tough, durable and long-lasting
- > Exceptionally high level of resistance to salt water
- > Waterproof

### TECHNICAL INFORMATION

<b>COLOURS</b>	<b>TAPE WIDTH</b>	<b>ROLL LENGTH</b>
