

## SELF-ADHESIVE MAGNETIC TAPE

UKT77ADH

Ref	TS1257B
Date	Dec 2014
Pages	1 of 1

**DESCRIPTION** Premium quality, flexible magnetic tape with a high-tack, self-adhesive backing.

**INSTRUCTIONS / USES** Numerous industrial and engineering applications.  
 Widely used to secure secondary glazing units and fly screens.  
 Also used in arts & crafts for displays and fridge magnets.

**BENEFITS / KEY FEATURES**

- > Premium quality
- > Many different industrial applications
- > Easily cut with scissors

### TECHNICAL INFORMATION

<b>SUBSTRATE</b>	<b>ADHESIVE</b>	<b>COLOUR</b>
Strontium Ferrite in thermoplastic binder	Premium acrylic adhesive	Plain magnetic brown
<b>TAPE WIDTH</b>	<b>TAPE THICKNESS</b>	<b>ROLL LENGTH</b>
12mm or 25mm	1.50mm	10M or 30M long
<b>TEMPERATURE RANGE</b>	<b>MAGNETIC STRENGTH</b>	<b>CORE</b>
-10° to +50°C	45 g/cm <sup>2</sup>	76mm diameter cardboard core

### PART NUMBERS & ROLL WEIGHTS

12mm x 10M	25mm x 10M	12mm x 30M	25mm x 30M

0.70 Kgs	1.40 Kgs	2.00 Kgs	4.00 Kgs

**OTHER INFORMATION** The life expectancy depends upon the application and environment to which it is exposed. Regular overheating or being taken too cold, will result in the performance deteriorating. If kept at ambient temperature and away from strong magnetic fields, it has the potential to remain magnetic indefinitely.
